The Lion of the Day. THE OLD DUTCH OR GERMAN VEGETABLE PILLS.

For sale by S. Moody, Middlebury, Vt. To the Citizens of the United States and the Canadas is respectfully submitted this Directory to the means for regaining that which has been partially, and in some instances, totally lost.

What blessing should be prized above that of health.

and who knows better how to prize the blessing, than those who have been deprived of it? It is an old adage, (and one that contains a wise injunction,) "in time of peace, prepare for war." We should in time of Health prepare for the attacks of that stealthy lurof Health prepare for the attacks of that stealthy lurking foe, Disease. It would be wisdom to observe his movements, to scan well the form in which he approaches, and then to meet him with those means which are calculated to effect his overthrow.

Those means are now before this enlightened and intelligent community. They are accessible to the poor as well as the rich, and I trust that those who regard the Constitution of man as one of the finest specimens. as well as the rich, and I trust that those who regard the Constitution of man as one of the finest specimens of Divine workmanship, and the Laws by which that System is Soverned and directed, as originating in no other than in the councils of Heaven, will so far obey the injunctions of the latter as to provide the best safeguard for the former.

It is with the most flattering recommendations, subscribed by most eminent Medical Gentlemen not only
